POSTAL REGULATORY  
COMMISSION

Ladies and Gentlemen:

I understand Postmaster DeJoy has submitted a plan for the for the future operations of the United States Postal Service a plan that will DESTROY the USPS as SERVICE for the benefit of the citizens of the United States. The Postal Service is one that has been provided for in the Constitution.

DeJoy's plan must be rejected in total and Mr. DeJoy should be FIRED. Every action he has taken since his appointment to the office has been to the detriment of the users of the United States Postal Service, both individual users as well as corporate users.

The United States of America deserves the best, most responsive to its users needs, Postal Service in the World. Mr. DeJoy's plan would effectively reduce the service to the level of a 21<sup>st</sup> Century Pony Express. It must not be implemented. The Postal Service needs to return to the service levels in effect prior to the naming of Mr. DeJoy as Postmaster.

Sincerely,

A handwritten signature in black ink, appearing to read 'C McAbee', written in a cursive style.
